Feeling Safe: Pictures from my environment

For this activity you will need access to a camera and a printer so that you can print off images that are taken.

1. Look at your environment (it can be the room you're in or the wider college) take photos of images that you think best describe 'Feeling Safe.'
2. Construct a collage/picture/PowerPoint/video with your images.
3. There is no need for explanation – the images on their own are fine.
4. What do the pictures you have taken tell you about what 'feeling safe' means to you?
